Timekeeper:	Nicolas Bermudez		

Attendees: Nicolas Bermudez, Zain Abbas, Ralph Desir

Minutes

Agenda item:	Github Repository	**Presenter:**	Nicolas Bermudez

Discussion:

Ralph will make use of found resources to setup a Github account and get a Github username. The team will ask the professor for his Github username so that he may be added to the repository as a Collaborator. Zain will also accept his pending invite so that he may contribute to the project.

Conclusions:

The team should all have Github usernames and be collaborators by the next meeting.

Action items	Person responsible	Deadline
✓ Obtain Github Username	Ralph Desir	04/07/2024
✓ Accept Github Collaboration Invite	Zain Abbas	04/07/2024
✓ Post Github Username in Chat	Ralph Desir	04/07/2024

Agenda item:	Under-Served Market	**Presenter:**	Nicolas Bermudez

Discussion:

Our project tasks our team with proposing an App for an under-served market. At the next meeting we each must propose a market or product that we could cater to when designing the app. A final decision about what market to appeal will be made by the end of the next meeting. After which we can begin to predict how the market will grow or what could disrupt it

Conclusions:

For next meeting, all team members will propose what market the app should cater to. A final decision will be made by the end of next meeting.
